Homework 6 report

110612025 魏于翔

Final interface snapshot

- final prompt: A very cute, round-faced, black and tan Shiba Inu. It is playfully covering its mouth with one front paw, hiding a cheeky smile, with its eyes slightly squinted in a joyful, smiling shape. It is wearing a blue beanie hat with a white pom-pom, a red striped scarf, and a green puffy down jacket. Light snow is falling, photorealistic, cinematic lighting.
- generated image

Process snapshots

- prompt 1: A round-faced Shiba Inu with a black and tan (or black and yellow) face, wearing a blue knitted hat with a white pom-pom, a red striped scarf, and a green down jacket, smiling happily in a place where light snow is falling
- Attempt 1

- prompt 2: A very cute, round-faced, black and tan Shiba Inu, happily smiling while crossing its front paws. It is wearing a blue beanie hat with a white pom-pom, a red striped scarf, and a green puffy down jacket. Light snow is falling, photorealistic, cinematic lighting.
- Attempt 2

Reflection

My initial prompt is “A round-faced Shiba Inu with a black and tan (or black and yellow) face, wearing a blue knitted hat with a white pom-pom, a red striped scarf, and a green down jacket, smiling happily in a place where light snow is falling”, but i think the color of Shiba doesn’t match my expectation, so in the second prompt i modify with “black and tan Shiba Inu”, “make the face rounder”, and “crossing its two front paws”.

But then i realize, i want the image be more entertaining and funny, so i add the change that i liked most is “playfully covering its mouth with one front paw, hiding a cheeky smile”, and i want the eyes cutier, so i also add “with its eyes slightly squinted in a joyful, smiling shape.”, and it finally meet the expectation of cutest dog image.
